

Design, Operation And Maintenance of Building Systems, Part I

Required for: RPA, FMA

Through this course you will learn to manage the ongoing maintenance and operation of building systems, gaining insight into the many issues that affect building efficiency and cost effectiveness. This course provides information about building design and construction, project delivery, construction materials, and HVAC (heating, ventilating, and air-conditioning) systems. Other areas of interest that are also covered in this course book include roofing systems, ceilings and floorings, interior walls, and plumbing systems.

Topics covered:

- Building design and construction
- Construction materials
- Structural systems
- Heating, ventilating, and air conditioning
- Plumbing systems
- The building envelope
- Building system controls
- Life-cycle costing
- Roofing
- Interior walls, ceilings, and flooring

This course will be offered over four days in an accelerated review format. The instructor will be assuming that all of the participants have read and are familiar with the information in the text.

Date: May 1-4, 2018

Time: Tues. - Thurs. 8:30 am to 4:30 pm, Fri. 8:30 am to 12:00 noon

Instructor: Adrian Cowling

Cost*: \$ 1,465.00

\$ 1,315.00 for BOMA Nova Scotia member companies

Exam Cost: Included in the course fees listed above

Location: TBA. Exams can be scheduled at all Pearson VUE testing sites

**Cost is subject to change up to 90 days prior to the start of the course.*

The Design, Operation & Maintenance of Buildings, Part II

Required for: RPA, FMA

This course (in conjunction with Part I) provides information property and facility managers will need to make management decisions about various building systems and sites. These decisions will increase occupant safety and comfort while facilitating building efficiency to meet the business goals of an organization. This course is about understanding electrical systems and lighting, elevator maintenance and modernization, and pest and solid waste management. Other areas of interest also covered in this course include security issues, fire and safety systems, and energy management concerns.

Topics covered include:

- Security
- Fire protection systems
- Electricity (AC and DC) and its applications in building systems
- Energy management
- Pest control and solid waste management
- Vertical transportation systems
- Lighting systems
- Window cleaning and architectural metal maintenance
- Landscaping and parking
- Maintaining a secure, safe building

This course will be offered over four days in an accelerated review format. The instructor will be assuming that all the participants have read and are familiar with the information in the text.

Date: November 2018

Time: Tues. - Thurs. 8:30 am to 4:30 pm, Fri. 8:30 am to 12:00 noon

Instructor: Adrian Cowling

Cost*: \$ 1,465.00

\$ 1,315.00 for BOMA Nova Scotia member companies

Exam Cost: Included in the course fees listed above

Location: TBA. Exams can be scheduled at all Pearson VUE testing sites

**Cost is subject to change up to 90 days prior to the start of the course.*

BOMI students may take a mixture of self-study and classroom classes.

Asset Management

Elective for: RPA, FMA

Today's property managers work hand-in-hand with asset managers and often serve as asset managers themselves. Expert education gives professionals the capability to build value in real estate assets, providing confidence to investors, owners, and building tenants. Make sense of your assets, discover the asset manager's role, function and place in real estate and business, and master the ability to outperform competitors.

Major topics covered:

- Developing an asset management plan, including appropriate resources associated with the current economy;
- Measuring financial and operational objectives, including audits and reasons for them;
- Managing and marketing strategies for retaining and attracting tenants;
- Acquiring, disposing, and evaluating troubled properties for sound decision making;
- Implement current investment analysis software.

This course will be offered over four days in an accelerated review format. The instructor will be assuming that all of the participants have read and are familiar with the information in the text.

Date: February 2019

Time: Tues. - Thurs. 8:30 am to 4:30 pm, Fri. 8:30 am to 12:00 noon

Instructor: TBA

Cost*: \$ 1,465.00

\$ 1,315.00 for BOMA Nova Scotia member companies

Exam Cost: Included in the course fees listed above

Location: TBA. Exams can be scheduled at all Pearson VUE testing sites

**Cost is subject to change up to 90 days prior to the start of the course.*

Environmental Health & Safety Issues

Required for: RPA, FMA, SMA

Protecting the environment and promoting worker health and safety are issues at the centre stage of today's property industry. This course provides you with an overview of the environmental health and safety considerations in building operations. You'll learn to develop and manage proactive environmental/occupational health and safety programs, comply with regulatory standards and guidelines governing facility health and safety issues, and assess when to obtain technical assistance.

Major topics covered in this course

- Regulatory overview
- Hazard communication
- Emergency response
- Asbestos and lead management
- Office and industrial ergonomics
- Audits, record keeping, and legal issues
- Indoor air quality
- Air emissions and pollution control
- Storage tanks
- Hazardous waste
- Site assessment

This course will be offered over four days in an accelerated review format. The instructor will be assuming that all of the participants have read and are familiar with the information in the text.

Date: April 2019

Time: Tues. - Thurs. 8:30 am to 4:30 pm, Fri. 8:30 am to 12:00 noon

Instructor: TBA

Cost*: \$ 1,465.00

\$ 1,315.00 for BOMA Nova Scotia member companies

Exam Cost: Included in the course fees listed above

Location: TBA. Exams can be scheduled at all Pearson VUE testing sites

**Cost is subject to change up to 90 days prior to the start of the course.*
